

Lenovo Y40 and Y50

POSITIONING STATEMENT

High-performance Lenovo Y40 and Y50 laptops combine a range of display choices with features such as premium Dolby certified audio enhancement, up to 4th generation Intel® Core™ processors and the latest graphics, making them the ideal laptop for gaming. They are the ultimate advanced multimedia laptops that bring video, music and games to life. The new Y Series laptops come with smart technologies including Energy Manager, to protect the long-term durability of the battery and using advanced energy-saving technology to increase time spent between charges.

KEY FEATURES

- Up to Ultra HD (3840x2160) full display or Full HD (1920x1080) touchscreen on Y50
- DVD drive coupled with Dolby audio enhancement certification for an immersive movies and music experience (Y50 only)
- Latest Intel Core processors and plenty of storage space
- Backlit AccuType keyboard (optional on Y50 only) with individual rounded keys for comfortable and accurate typing
- Speak to your PC to execute simple commands with Lenovo Voice Control
- Smart technology feature Energy Manager for protecting the long-term battery durability
- A range of connectors for faster file transfers and connecting to larger screens
- 720p HD webcam to stay connected with friends and family through video chats
- VeriFace Pro facial recognition for quick and secure log-in
- Genuine Windows 8.1 that supports legacy apps and desktop mode

Lenovo LI2223s, LI2323s, LI2821s

POSITIONING STATEMENT

The Lenovo LI2223s, LI2323s and LI2821s are sleek monitors with a thin profile and extremely detailed display, offering split screen for simultaneous multi-source for those who love to multi-task. These 21.5-in and 23-in monitors offer borderless Full HD displays with IPS technology for stunning visuals at any angle, while the 28-in model has a 4k resolution display for amazing visuals. The premium aluminum stand is tool-free for easy removal and VESA wall mounting. Featuring VOIP functions, the LI2821s include a one key design to answer incoming VOIP calls via Skype or Lync.

KEY FEATURES

- IPS FHD display area for detailed visuals on the 21.5-in and 23-in models, and 4k UHD 3840x2160 resolution on the 28" for mind-blowing visuals
- Super VOIP on the 28-in: JBL speakers and 1080p camera for Skype or Lync calls
- Comprehensive connectors, including MHL for connecting your smartphone (MHL on 4k monitor only)
- Split screen simultaneous multi-source of up to 4 sources on 28-in
- Borderless Full HD Display for optimum gaming on 21.5-in and 23-in
- IPS technology for stunning visuals at any angle on 21.5-in and 23-in
- Premium design aluminum stand
- Tool-free aluminum stand removal for easy VESA wall mounting on 21.5-in and 23-in
- 3x signal inputs: HDMI, DVI, VGA on 23-in
- Thin profile for a sleek look (applies to 21.5-in and 23-in)
